(a) Kumaraswamy, $\int f^{1+\gamma} < \infty$ (γ=0.3)
infinite
finite
infinite
b
a
(b) Unit-Weibull, original scale
k=0.6
k=1.0
k=1.5
truncated integral
upper limit of $t = -\log y$
(c) Unit-Weibull, logit scale
truncated integral
half-width of logit range
